Suit and sport coat sizes have one number and one descriptive word (for example, 38 short, 40 regular, 42 long). The number refers to your chest measurement, and the descriptive word refers to the length of the pant, Shirt and jacket size.

Check your own measurements and look for additional size information on the product page to determine which size you should purchase.

Need help? [Find the store nearest you](#) and come in for an expert fitting ready made.

Short (S)                    5'4" to 5'7 1/2"
